ABOUT ME

I am a recent graduate with a Bachelor of Informatics degree, specializing in fullstack development, particularly in website development. I have a solid academic foundation in programming. I possess excellent communication skills and a passion for continuous learning and growth in the field of technology. I am eager to contribute and grow alongside a dynamic team.

SKILLS

- **Backend:** Java | Spring Boot | Spring Security (JWT) | RESTful APIs | SQL for databases | JPA/Hibernate | Microservices Architecture | Git | Docker
 - **Front-end:** JavaScript | React | Redux | React Hooks | Routing | Tailwind CSS | Axios | Vite | Responsive
 - **Mobile:** JavaScript | React-Native | Redux | React Hooks | Routing | Native Wind | Axios | Expo | Lottie Animations
-

EXPERIENCES

Full Stack Developer

Freelance – Project-Based Expertise

Mar 2024 - Present
South Jakarta, Indonesia

- **Smart Laundry:** Built a comprehensive mobile and web application that automates order management for laundry businesses, integrating payment processing, order tracking, and customer notifications, utilizing React Native, Expo, Java, Spring Boot, and PostgreSQL.
- **EduWave:** This application offers a simple and secure school fee payment solution. This application was created using Spring Boot for the backend, React JS for the frontend and React Native for mobile and is designed to be easy to use by ordinary people.

Full Stack Developer

Training and Certification

Sep 2023 - Feb 2024
South Jakarta, Indonesia

- Completed several online courses on platforms like Udemy and YouTube, in addition to participating in a comprehensive bootcamp, all aimed at enhancing my full-stack development skills and understanding.
- Focused on mastering core programming languages and frameworks, including Java, Spring Boot, JavaScript, and Golang, while also deepening my knowledge of front-end technologies like React for building dynamic web applications

Assistant Lecturer (Software Engineering)

Del Institute of Technology

Jan 2023 - May 2023
North Sumatra, Indonesia

- Guiding students through fundamental software engineering concepts, ensuring they can apply their knowledge in practical projects.
- Providing comprehensive lessons on the software development lifecycle (SDLC), emphasizing the importance of each stage.
- Explaining each phase in SDLC, from requirement gathering and design to testing and post-deployment maintenance.
- Proven success in teaching, with all students achieving satisfactory or higher grades

Front-End (Trainee)

Mar 2023 - Apr 2023

Digital Talent Scholarship (Progate)

Remote

- Gained in- depth knowledge of HTML, CSS, JavaScript, Git, and various CSS frameworks such as Bootstrap, Sass, and Tailwind through comprehensive training sessions, covering both foundational and advanced concepts.
- Successfully developed and completed two full projects during the training, applying the skills learned in real-world scenarios

Front-End (Trainee)

Aug 2022 - Dec 2022

Merdeka Belajar Kampus Merdeka (Hacktiv8)

Remote

- Undertook independent studies in web development, dedicating time to mastering HTML, CSS, and JavaScript in order to create innovative and responsive websites that provide a seamless user experience across various devices, such as mobile, tablet, and desktop.
- Successfully completed four projects where I applied skills in API Consumption to integrate external data and JavaScript DOM Manipulation to create dynamic, interactive websites that respond to user input in real-time.
- Developed a strong understanding of Form Handling and Validation, ensuring that forms are not only interactive but also secure, while also learning to use Git for version control, which facilitated efficient project management and collaboration.
- Enhanced my knowledge of Responsive Design, enabling me to make websites adaptable to different screen sizes, while simultaneously honing my problem-solving abilities and design skills through practical, real-world projects.

Front-end Developer (Intern)

Jun 2022 - Aug 2022

Coordinating Ministry for Maritime Affairs and Investment of the Republic of Indonesia

Remote

- Successfully completed an internship in the frontend field, where I was involved in developing engaging and responsive user interfaces (UI) to enhance the overall user experience.
- Utilized HTML, CSS, and JavaScript during the internship to create interactive and visually appealing web applications.
- Successfully developed a website called "Go Green," which provides information on the health conditions of forests throughout Indonesia, showcasing my ability to apply learned skills in a real-world project.

Organizational Experience**Head of Multimedia Division** - *Department of Religion and Social Affairs at Del Institute of Technology*Aug 2020 - Jul 2022
North Sumatra, Indonesia**Vice Chairperson** - *General Election for the Chairperson and Vice Chairperson of the Informatics Study Program*Jul 2021 - Aug 2021
North Sumatra, Indonesia**Member of the Multimedia Division** - *General Election for the Chairperson and Vice Chairperson of the Informatics Study Program*Jul 2020 - Aug 2020
North Sumatra, Indonesia

Education Level**Del Institute of Technology** - *Toba, North Sumatra*
*Bachelor Degree in, 3.39/4.00*Aug 2019 - Sep 2023
North Sumatra, Indonesia
